

# State of New Jersey Required 5-Year Pool Inspection Certificate

## Did you know?

The State of New Jersey requires Electrical Inspections and “bonding and grounding” Certificates for:

- Swim Clubs
- Commercial Pools
- Public Swimming Pools

## When was your pool Inspected?

The State of New Jersey requires all commercial/public swimming pools, hot tubs and spas to be inspected electrically and for “bonding and grounding” systems, every 5-years and/or every time any pool equipment is replaced/repaired.

Don't compromise on **SAFETY**. Let our expert electricians assess your pool's electrical components to ensure they are functioning properly, safe for bathers and up to the National Electric Code standards for:

- Life Safety
- Eliminating shock Hazards with proper bonding and grounding
- Eliminating deterioration of connections and wiring, from corrosion
